DESCRIPTION Enable continuous testing of your mobile app and make your app shine with Quamotion. With Quamotion's mobile quality management platform, you can build your test plan, perform manual and automated tests on real devices and analyze the results. Quamotion provides a software as a service platform, with a low price point, and built in support for cloud, for your end to end mobile testing requirements. Quamotion provides a commercial off the shelf solution for teams that want to deliver top quality apps, and a toolset that we license that other companies can integrate in their products, frameworks and offerings
